Optioncalls - Traper

Bot Working
The Bot Calculates Many Factors On Every Candle Which Converts More Safe & Secure
Trade With Lower Point Stop Loss Require Means Which Can Help 99 % Accuracy In Trades ,
But Before Going in Live trade Trader Need To Study This Bot Behavior's Carefully , Because
There Is Lots Of Calculations Involved Behind This , But We Translate it in Simple Way,
when Signals are Generated before time or on time Line Mark Created.

The Main Area Of Taking Careful Trade Starts Here
After Generating Any Signal There Will Be a Line Marking For Visual Effect With Alaram
Function There Will Be Very Simple Rule When Any Signal Will Generate Either Is On Buy Or
Sell Side.

When To Buy :-
Always Buy Above Line Mark When Generate full Candle & That Candle Cant Touched To
Line Mark Means 99 % Safe Zone

When To Sell :-
Always Prefer To Sell When Complete Candle Generate & That Candle Should Not Touched
To Line Mark Means 99 % Safe Zone

How To Use :-
HTF 1 7 Minute , HTF 2 9 Minute , HTF 3 10 Min And HTF 4 15 Minute Setting Require How
To Install Indicator On Trading View Chart After Payment

Stage 1. Open Account With Trading View https://in.tradingview.com or Download App From Play
Store

Go To Chart Click On Indicators

Go To Invite – only – scripts

Select Your Activated Indicators

Chart :-

Select You Prefer Time Frame :-

Prefer Time Frame 1 Minute

Alerts & Webhooks For Auto Buy Or Sell Only

Alert Setting :- Once Per Bar Only

NB :- Alerts & Webhook Functions Will Be Accessible As Per Your Trading View Account Plan.

Alerts are used for manual trading as well as algo trading with webhook

Other Signals :-

TL :- 90 % Chances Of Down

TH :- 90 % Chances Of Up
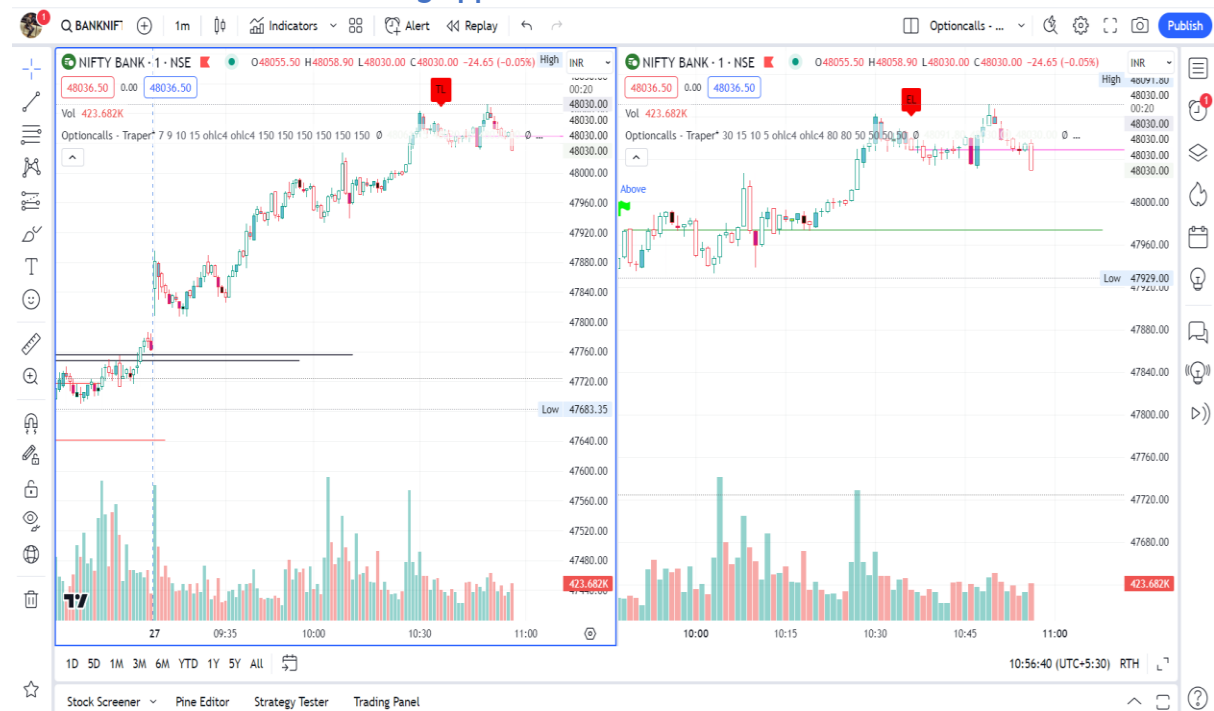

TC :- Trap

TO :- Trap

These 4 Signals Prompt Before Trend Change Or Trap just But The Main area Of Trades Starts Here Means After Generate Any Trap Or Buy Sell Signal There will Be Create Line Mark For Buy When Hollow Green Candel Generate Means Safe Zone For Buy But This Candle Above Any Trend Line And Not Touch m Same Thing For Selling When Trend Line Create and Red Hollow Candle Generate But Not Touched To Trend Line ThenThere Is Safe Zone For Selling Trade

For Better Result Used Chart In Twin Window With Different Time Frame Like

First Window :- HTF 1 7 Minute , HTF 2 9 Minute , HTF 3 10 Minute And HTF 4 15 Minute

Second Window :- HTF 1 30 Minute , HTF 2 15 Minute , HTF 3 10 Minute And HTF 4 5 Minute

Like This :- For Better Trading opportunities
